Features and Benefits

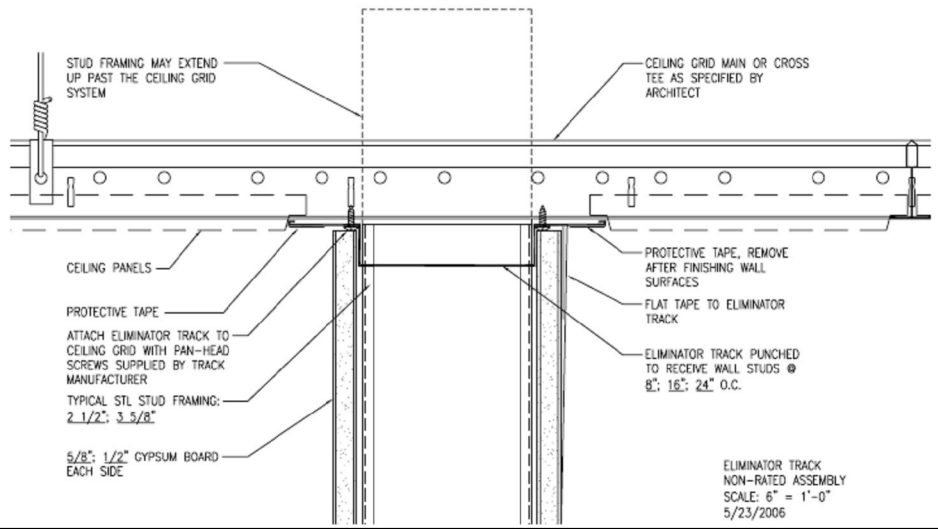

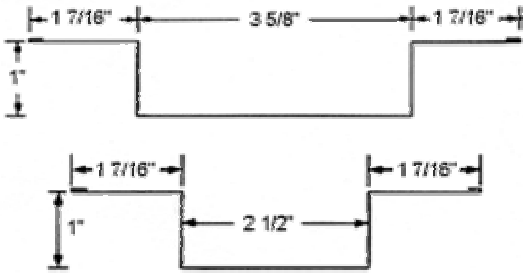

- Replaces standard top track in non-load bearing walls in building areas where ceiling grids have been installed.
- Reduces time required for ceiling lay-out, carpeting and framing, drywall and finishing of non-load bearing interior walls.
- Allows wall studs at 16" and 24" spacing.
- Lowers installation costs
- Eliminates cutting studs due to uneven floors.
- Eliminates fastening studs with screws or stud crimpers.
- Eliminates building walls before installing ceiling grid.
- Eliminates the need for J-bead and L-bead.
- Eliminates cutting holes for wiring.
- Eliminates errors in stud layout.
- Eliminates significant taping labor.

Application

- One hour fire rated walls
- 2-1/2" and 3-5/8" interior non-load bearing walls
- Partition walls in existing buildings
- Office space renovations

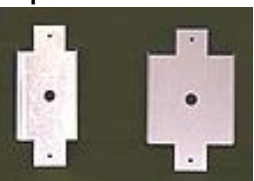

SECTION

MATERIALS:

25-gauge electrogalvanized steel with a white baked polyester paint finish

DESCRIPTION	ITEM NUMBER	PIECES PER CARTON
Eliminator Track® 	2-1/2" x 12' 45-8000	10
	3-5/8" x 12' 45-8010	10
90° Corner 	50-9000	50
135° Corner 	50-9005	50
Endcap 	2-1/2" 50-9010	50
	3-5/8" 50-9011	50
Splice Plate 	2-1/2" 50-9015	25
	3-5/8" 50-9020	25
